

MANTRA CATS CATTERY

Reservation & Adoption Process Guide

From **\$1,500** for British Longhair and **\$3,000** for British Shorthair — champion bloodlines at honest pricing.

Reservation & Adoption Process

Reserving a British Shorthair or British Longhair kitten from Mantra Cats is a personal process. We guide each family from the first conversation through the day their kitten comes home.

Our goal is to make your kitten's transition home as smooth as possible.

Every adoption includes the appropriate veterinary care, documentation, preparation and support described below.

Health & Care

Veterinary examination
Age-appropriate vaccinations
Deworming
Microchipping
Written health guarantee

Documentation

CFA or TICA registration upon request
Pedigree certificate upon request
Veterinary records
Microchip information
Adoption documentation

Going Home

Care & nutrition guide
Welcome kit
Transition essentials for the ride home
Lifetime breeder support

Kitten Health & Veterinary Preparation

Your kitten's health and preparation for the transition home are important parts of our adoption process (this happens regardless of whether the kitten has been reserved.). Veterinary care and documentation are provided according to the kitten's age, individual needs and the terms of the adoption agreement.

✓ Veterinary examination before joining the new family

✓ Age-appropriate vaccinations

✓ Routine deworming according to veterinary recommendations

✓ Microchip identification

✓ FeLV/FIV testing where applicable

✓ Spay or neuter according to the adoption agreement

✓ Veterinary and vaccination records provided with the kitten

✓ Written health guarantee

We believe families should receive clear information about their kitten's health, care and documentation before the kitten goes home.

How to Reserve Your British Shorthair or British Longhair Kitten

1

Contact Us

Call us at **+1 (713) 887-1385**, message us on  **WhatsApp**, or use our **contact form** to discuss available kittens and upcoming litters. We can answer your questions about colors, personalities, availability, pricing, timing and the reservation process.

2

Choose Your Kitten

We'll help you choose a kitten based on your preferences for breed, color, gender, personality and timing. Because we spend time with our cats and kittens every day, we can share information about their individual personalities and help you find a good match for your family.

Browse current kittens and upcoming litters on our **Available Kittens** page.

3

Sign the Contract & Begin the Payment Schedule

Once you've selected a kitten, the adoption contract is completed and a **\$500 non-refundable reservation fee** secures your reservation. The reservation fee is applied toward the total adoption fee according to the terms of the adoption agreement.

The remaining adoption fee is divided into the agreed **mid-term payment** and **final payment**, with the amount and due date of each payment specified in the signed adoption agreement.

The reservation fee, mid-term payment and final payment are all non-refundable.

Visiting Mantra Cats

Our cats and kittens live together in a home environment rather than in separate enclosures. Because our cats share the same environment, protecting them from outside pathogens is an important part of our biosecurity practices.

For this reason, in-person visits are arranged by appointment for families who are moving forward with a specific kitten and need to meet the kitten in person before completing the adoption process.

In-Person Visits

Scheduled visits are available for families who are seriously considering a specific kitten. This allows us to prepare the appropriate biosecurity precautions before your visit.

Video Calls

If you cannot visit in person, we are happy to arrange a video call so you can meet your kitten, see the environment and speak with our team.

4

Stay Connected

While your kitten continues to grow, we'll keep you updated with photos and videos when available. This gives you the opportunity to watch your British Shorthair or British Longhair develop from a young kitten into a confident, playful companion.

We also provide guidance to help you prepare your home, understand your kitten's routine and make the transition as comfortable as possible.

Prepare for Your Kitten's Arrival

Kittens leave Mantra Cats at **12-16 weeks of age**, once they are fully vaccinated and veterinary-cleared. This timeline holds regardless of when the kitten was reserved.

Before your kitten leaves Mantra Cats, we make sure the applicable documentation, care information and other materials included with your kitten are ready for you.

Your Kitten's Transition Home

We want the first days at home to be as smooth as possible. Your kitten leaves with the information and essentials needed to help your family continue the routine your kitten is familiar with.

✓ Transition food to make their journey to their new home more comfortable

✓ A familiar comfort item for the journey home

✓ Care and nutrition guidance

✓ Veterinary and vaccination records

✓ CFA or TICA registration and pedigree documentation are available upon request for a minimal additional fee and will be provided once issued. Please note that processing may take some time, as the respective organizations require time to process and release the official documents.

✓ Microchip information

✓ Ongoing lifetime support from Mantra Cats

Reservation & Payment Schedule

The total adoption fee is divided into three payment stages: the **reservation fee, mid-term payment, and final payment**. Each payment is documented in the signed adoption agreement and is **non-refundable**.

Reservation Fee

\$500

A non-refundable \$500 reservation fee secures the selected kitten and is applied toward the total adoption fee.

Mid-Term Payment

The agreed mid-term payment is due according to the payment schedule specified in the signed adoption agreement and is non-refundable.

Final Payment

The remaining balance is due according to the adoption agreement before the kitten is transferred to the new family and is non-refundable.

All three payment stages are non-refundable.

The reservation fee, mid-term payment and final payment are all subject to the terms and conditions of the signed adoption agreement.

The exact amount and due date of each payment are stated in the adoption agreement provided to the buyer. Please review the agreement carefully before making any payment.

Delivery Options & Transportation

We understand that not everyone can travel to Houston for pickup. We offer several convenient transportation options to help families receive their British Shorthair kitten safely and comfortably.

Option 1: Local Pickup — Houston Area

Meet us at our Houston-area location. This is ideal for local families and allows for a face-to-face introduction and detailed care instructions.

Complimentary

Option 2: Professional Delivery Service

We can arrange professional ground transportation to your location. Pricing depends on distance, destination, and transportation requirements.

Starts at approximately \$500

Option 3: Nanny Service

For families who prefer a more personalized transportation option, we can arrange a nanny-style delivery service where the kitten travels accompanied by a designated person.

Starts at approximately \$400

Option 4: Midpoint Meeting

We can arrange to meet at a mutually convenient midpoint location, reducing travel time for both parties.

Starts at approximately \$100

What's Included with Delivery

- Secure, comfortable travel carrier
- Welcome kit
- Food and water for the journey
- Medical documentation
- Complete care instructions

Availability and final pricing depend on distance and travel requirements. Contact us to confirm options for your location.
